

To Whom It May Concern:

This is a letter of reference for Glenn Tamura.

Glenn has installed a State of the Art Digital Surveillance System for our hospital in South Seattle.

The system consists of 16 high resolution cameras, and covers our parking lots, hallways, and entrances in our facility.

The system records to a hard drive, and is activated on motion detection.

In addition, we can access the camera system from any computer in our location.

We are very happy with the extra-ordinary service Glenn provides to us, and we strongly recommend his services to anyone who is planning a Digital Surveillance System.

Feel free to contact me.

Yours Truly,

Henry Brown
